

# WOMAN WILL HEAD EXPEDITION TO LOCATE PIRATES' PLUNDER

Claims to Have Maps and  
Secret Charts.

BOOTY WORTH \$5,000,000

Nova Scotia Says Man Captured by  
Sea Rovers When Boy Gave  
Her Information.

BOSTON, March 7.—Way down deep in the sands of a deserted and barren island of the Magdalen group, in the Gulf of St. Lawrence, lies an old English oak chest with \$5,000,000 worth of treasure, placed there nearly eighty years ago by a band of pirates. Only one person in the world today claims to know the exact location of the vast fortune, and is here in Boston for the purpose of finding some one who will back an expedition to go in quest of it.

The woman who knows about the treasure is Miss Sadie J. Mason, of Truro, Nova Scotia. She has left her little home in Truro thinking that she might interest some person in Boston to fit out a vessel and go down to the lonely island, dig up the chest and divide the spoils. Miss Mason, in describing how she came to know about the treasure, says:

"The treasure was placed on the island by a band of pirates way back in 1830. My father was sea captain, and while on one of his many voyages shipped a mate who went on several trips. After my father died this man came to live with me, and one day before he died told me the story of how the treasure was buried."

"When this man was a little boy, only eleven years old, he went aboard a Nova Scotia bark called the Mary Dwyer. She sailed to ports in South America, and while on one of her trips made the port of Lima, in Peru. That was in 1830, and at that time a revolution was in progress. The wealthy citizens of Lima, fearing that their wealth would be stolen and that they would be killed, made a bargain with the captain of the Mary Dwyer to load on their valuables and leave the turbulent country. This was done, and with the vast fortune on board the ship cleared the port and headed for the Nova Scotia shore."

Captured by Pirates.  
"The Mary Dwyer was making fast time, and when passing through the Caribbean sea was captured by a pirate ship. A battle lasted for four hours, resulting in a victory for the pirates."

## COUNTRY DISTRUSTS CAZAR'S DOUMA PLANS

Russian Press Says Assembly Will  
Plainly Have to Struggle Against  
Forces of Autocracy.

ST. PETERSBURG, March 7.—The press comments on the Imperial manifesto relative to the national assembly and reorganization council of the empire, in which the Czar outlines the organization of the two bodies and establishes their powers, is unfavorable. All the newspapers seem to expect that when the national assembly meets it will have to struggle against the autocracy. Alarming reports have been received from the Far East to the effect that the Japanese in that region are maltreating Russians. The Japanese are reported to have boasted that they will resume the war against Russia.

A dispatch from Warsaw says six political prisoners who had been condemned to be shot, escaped through the windows of Modlin fortress, where they were confined, through the connivance of the sentries, who were bribed for \$15 each.

## How to Fool a Lazy Liver with Artificial Exercise

EVERY serious Sickness has a small beginning.

And, in nine cases out of ten that small beginning is made in the Bowels.

Indigestion is the beginning of most diseases.

It paves the way for all others.

Lack of exercise, hasty eating, improper food, are its first causes.

Laziness, and postponement, permits it to grow into Chronic Constipation, which means life-long Discomfort.

It isn't necessary to be sick-a-bed, you know, in order to be mightily uncomfortable.

Even slight indigestion affects the nerves, dulls the mind, and obscures the merry sunshine of Life.

And, indigestion once started, grows fast, corrodes temperament, and discounts happiness, good cheer, capacity.

It does that long before it puts you on the Sick list.

Every thinking Doctor knows why.

Professor Rand knew it.

That's why he framed up for students his famous formula for Happiness, viz.: "Trust in God, and keep your Bowels open."

The Bowels need adjustment from time to time, just like a clock, or a watch.

No "Good time" is humanly possible without this.

And, the time to adjust the watch is not when it has run down, nor when the main spring is broken, but at the very minute adjustment is discovered necessary.

The time to adjust the Bowels is not merely when your Head Aches, when your Liver is Sick, your Stomach in Revolt, and Nature's Food Process retarded for 24 hours or longer.

The proper time to adjust them is the very minute you suspect they need adjustment.

Nova Scotia woman, seeking to interest Boston people in search for \$5,000,000 in buried treasure, and map showing Magdalen Islands, on one of which money is supposed to be.

All on board the Mary Dwyer, with the exception of the boy, were forced to walk the plank. The treasure was taken from the ship and then she was fired.

"With their vast amount of wealth the pirates dared not enter any port, so headed for the northern coast and buried their chest on a barren and desolate island. Then they left and sailed back to Southern waters."

"Fifty years after he had been taken by the pirates the boy cruised around the Magdalen Islands and immediately recognized the island where the board of treasure was buried. He kept this a secret, and, after marking the spot and making a chart of the location, he returned home. The pirates had been hanged."

## DUBOIS FLAYS BROKER WHO SCOLDED SENATORS

Told New Yorker That Letter From  
Such as He Would Convert One  
From Payne Tariff Bill.

Senator Dubois has taken what many consider a final shot out of the friends of the Payne tariff measure, which met defeat in the Senate Committee on Philippines last Friday.

Senator Lodge has been contemplating bringing the question before the open Senate by asking that the committee be discharged from further consideration of the bill. Because they opposed this procedure several Senators have received letters from stockbrokers accusing them of selfishly defeating a measure which the whole country demanded should be passed.

Senator Dubois received one of these. It was dated at 20 Broad street, New York, March 5, 1906, and signed by "Fred W. Perry." The letterhead bore the imprint of the New York stock exchange. Mr. Dubois answered the letter in no uncertain terms.

In part, his answer follows: "You know nothing and care nothing about the producers of this country so long as you can join in robbing them of the fruits of their toil. If I had any misgivings at all as to the propriety of my vote on the Philippine bill a letter of censur from one of the accredited band of gamblers in New York city would have set such misgivings at rest."

## LOCAL SCHOOLS AND COLLEGES.

**Sirayer's Business College**  
17th and F Sts. N. W.  
Best instruction. Day and Night Sessions. Books and stationery Free. Situations Guaranteed. Charges small.

**The Berlitz School of Languages**  
723 14th St. N. W. A. Gouard, Principal.  
Grand Prize, St. Louis Exposition, 1904.  
French, German, Spanish, Italian, Russian, etc. Native teachers. Trial lesson free.

**PRIVATE DANCING LESSONS.** Give guarantee. Two-step, five lessons; class, \$1 month; special rates club, piano, etc. quick, mod. method. Address, with stamped envelope, BOX 52, Times office. mh-5t

**SPENCERIAN BUSINESS COLLEGE**  
Established 1864. Known in every language for its successful graduates; highest honors and medals; success unparalleled; equipment, systems, and methods unequalled. It costs no more to attend the best. Also Home Study Course. Begin now. Call or write "SPENCERIAN," 405 9th St. N. W., for free literature.

**LESSONS in oil painting; terms reasonable.** 1822 15th St. N. W. mh-5t

**KALL-NOTES DAY AND NIGHT PREPARATORY SCHOOL**  
Both sexes; all ages. Primary, Grammar, High. New classes forming. Catalogues. FRANCES MANN HALL, A. M., Principal. 211 F St. N. W. Telephone Main 3671-K.

**SCIENCE AND SKILL IN DENTISTRY**  
The crowning achievement of Dental Work finds its truest interpretation in the operations performed by Dr. Patton. Old Crowns or Bridge Work, Gold, Silver, or Dental Porcelain.

**Dr. PATTON'S**  
910 F Street N. W.

**EGGS A SPECIALTY 12c**  
Fine Creamery Butter, 5c. Potatoes, 7c. per bushel. The pack.

**J. T. D. PYLES**  
Seven Stores including 948 La. Ave.

**FREE TO OUR FRIENDS!**  
We want to send to our friends a beautiful French-designed, GOLD-PLATED BORNION BOX, hard-enamelled in colors. It is a beauty for the dressing table. Ten cents in stamps is asked as a measure of good faith and to cover cost of Cascares, with which this dainty trinket is loaded. 716 Send to-day, mentioning this paper. Address S. R. Remy Company, Chicago or New York.

# PLAYGROUNDS IDEA IS NOW OF VOTING AGE

Began in Berlin Twenty-One Years Ago and Has Spread  
Widely—New York and Chicago Spending  
Millions Annually.

Ever since the movement for public playgrounds has been agitated in Washington, it has met adverse criticism from persons who show a lack of familiarity with the project. Some seem to think the idea an experiment of local origin.

Speaking of this impression, Dr. Henry S. Curtis, supervisor of playgrounds, said this morning:

"One sometimes hears the playground movement spoken of as if it were a fad that had come in a day and would pass in a night. Those who speak so do not well understand the nature of children, the extent of the movement or the roots from which it has grown."

Of Voting Age.

"The playground movement began in 1885 in the sand gardens of Berlin. Since that time, it has spread over Germany, Switzerland, Scandinavia, England, Scotland, Japan, and America. In Germany, play has been introduced into a number of the schools as a regular subject, thus extending the kindergarten idea through the grammar grades."

"The first playgrounds in America were opened in Boston in 1886, but there was no considerable progress from that time until the school board in New York opened its playgrounds to the children in 1888. Since that time the progress has been rapid and the sums expended have been large. Last year, New York spent nearly \$2,000,000, and Chicago about \$4,000,000 on playgrounds."

Child's Play His Life.

"We are coming to see that a child's play in his life and on his physical, social, and moral welfare mostly depends."

"The following are some of the cities which are known to maintain playgrounds: New York, Philadelphia, Boston, Chicago, St. Louis, San Francisco, Los Angeles, Denver, Milwaukee, Minneapolis, St. Paul, Detroit, Grand Rapids, Cleveland, Toledo, Buffalo, Syracuse, Rochester, Albany, Newark, Jersey City, Baltimore, Pittsburgh, New Haven, Hartford, Worcester, Providence, Lowell, Cambridge, Portland, and Louisville."

Women have contributed largely to the success of the playgrounds movement. In many of the large cities the work is carried on through their efforts. Dr. Curtis received today a copy of a letter from Sarah S. Plato Decker, president of the General Federation of Women, to Mrs. Samuel Fortier, chairman of the legislative committee of the organization. Mrs. Decker says:

"The need of public playgrounds for children in cities is as great, to my mind, as the need of schools. To expect to build a strong nation, physically, mentally, or morally, out of citizens dwarfed in mind and body by living in tenement districts, airless and unclean, is foolish and unscientific."

"The duty of every city is to furnish the nation men of bodily vigor, and in no other manner can this be so readily accomplished as by providing the means for the out-of-door life of the future citizen."

"It is not the man who loves nature, who has been taught beautiful physical exercise, who inhabits the penitentiary or the insane asylum; it is the one who spends his life in the alleys, the dark streets and hiding places of the city. Let us have more parks, and in a generation we shall have fewer iron bars."

Fine Office Rooms for Rent  
In the Munsey Building facing Pennsylvania avenue, between Thirtieth and Fourteenth streets. For rates and information, apply to A. D. Marks, office of The Washington Times.

## Big Showing of Spring Fabrics

—Mertz's display of new Spring Fabrics is an exhibit of the newest weaves and most exclusive styles. "Mertz-special" prices add to the attractions of the showing.

Suit to order, in the "Mertz-way," of medium and winter weight fabrics, in black and fancy effects, for \$9.50

Mertz & Mertz Co., 906 F Street

# HANDS RAW WITH TERRIBLE ECZEMA

Suffered for Ten Years—Spreading  
to Body and Limbs Despite Efforts  
of Three Doctors—Another Remarkable and Speedy

## CURE BY THE CUTICURA REMEDIES

"I had eczema on my hands for ten years. At first it would break out only in winter. Then it finally came to stay. I had three good doctors to do all they could, but none of them did any good. I then used one box of Cuticura Ointment and three bottles of Cuticura Resolvent and was completely cured. My hands were raw all over, inside and out, and the eczema was spreading all over my body and limbs. Before I had used one bottle of Cuticura Resolvent, together with the Ointment, my sores were nearly healed over, and by the time I had used the third bottle, I was entirely well. I had a good appetite and was fatter than I ever was. To any one who has any skin or blood disease I would honestly advise them to get the Cuticura Remedies and get well quicker than all the doctors in the State can cure you." Mrs. M. E. Falin, May 19, 1905. Speers Ferry, Va.
